

MSHA PART 14

STEEL CORD BELT SPLICE KIT

Fusion provides your **MSHA PART 14 flame-resistant Steel Cord Belt splice kit**, customized for your splice requirements and shipped quickly and with care, in well packed and marked crates, directly to your work site.

Fusion Systems experts have formulated these splice material compounds specifically for splicing, which means better adhesion and a better-quality, longer lasting splice. Fusion Splice Materials have been proven to work well with leading quality belt manufactures' belts for over a decade.

Buying a custom splice kit provides the following benefits:

- Price is comparable if not lower than most competitors,
- No wasted splice materials,
- No additional handling or transportation required when shipped to your shop or work site,
- No need to store and maintain splicing material inventory,
- No need to monitor splice material expiry.
- Shelf Life of the MSHA Steel Cord Belt Splice Kit is 3-6 months without refrigeration (20 °C or 70 °F).

SPECIAL ORDER SPECIAL ORDER ITEMS MAY EXPERIENCE DELAYED DELIVERY TIME.

Note: Actual contents will depend on your belt specifications and splice requirements.

Kits are customized-to-order specifically to your conveyor belt specification and splice requirements.

The Steel Cord Belt Splice Kit is carefully packed and shipped directly to your work site, ready-for-use, with the details marked on the crate exterior.

Please fill out this **Steel Cord Conveyor Belt Splice Kit Questionnaire** and our experts will customize your splice kit accordingly.
