

## **GRAZZLYPRO** SERIES 100

The **GRIZZLY** PRO Series 100 is an frame style vulcanizing press that takes on-the-jobsite ruggedness to the next level. Upgraded with an ultra-tough armor coating and sporting the **GRIZZLY** nameplate, with matching heat shields, handles and torque nuts, the **GRIZZLY** stands out. The **GRIZZLY** also includes protective UHMW runners on the bottom frame for ease of moving the press in and out of transportation and from the splice.

## FEATURES:

- LINEX-coated frame
- Powder coated name plate, heat guards, and nuts
- Improved grip handles
- Operating pressure of 7kg/cm<sup>2</sup> (100 psi)
- Signature Almex "Pressure Bag" uniform pressure system
- Custom "Extruded Plank" cooling system within platens
- Platens built to order in either a rhombic or rectangular design
- Durable "Silicone Element" heating system, custom designed to voltage phase and cycle
- Can be aligned side-by-side for a longer splice area and easier handling

COMPONENT	DESCRIPTION	COMPONENT	DESCRIPTION
PLATENS	<ul> <li>Utilizes innovative Almex flexible platen constructed from extruded plank, silicone heating element and durable composite insulation</li> <li>Each platen contours to belt irregularities, ensuring uniform results</li> <li>Maximum temperature 163 °C (325 °F).</li> <li>Platens available in either a rhombic or rectangular design</li> </ul>	CONTROL PANEL	<ul> <li>Suitable Controls:</li> <li>T1F: Inframe, maximum 30 amps total</li> <li>T2: Remote, maximum 40 amps total) for 230 Volt single phase operation</li> <li>T6: Remote, maximum 30 amps total) for three phase operation</li> <li>T2 and T6 panels feature dual temperature control and indication systems</li> <li>Optional timer available on T2 and T6</li> </ul>
PRESSURE/ COOLING	<ul> <li>Almex inflatable pressure system, made from durable fabric-reinforced rubber ensures uniform pressure across the splice surface</li> <li>Quick integral water cooling incorporated in platen design</li> </ul>		• Two light and rugged aluminum frames comprise upper and lower portions of press
