

FINGER SPLICE SKIVER KIT

Fusion Systems **Finger Splice Skiver Kit** makes conveyor belt splice preparation a snap. Previously time-consuming, manual work such as finger splice, step splice and steel cord splice preparation can be accomplished far more quickly and efficiently using this kit.

The Cordless Milwaukee® M18 FUEL™ Tool has a POWERSTATE™ Brushless Motor that delivers 10,000 to 20,000 OPM with an aggressive 4.2-degree oscillation angle to deliver the fastest cuts.

Vibration dampening technology delivers the lowest full tool vibration, letting you make cuts more comfortably with less fatigue. The Milwaukee® M18 Fuel™ Oscillating Multi-Tool has a 10-Setting Dial with an additional Auto-Load Feature, allowing you to adjust the speed to the application. An integrated 180-degree LED light provides maximum visibility in low-light situations.

FEATURES:

- Comes in 110- or 220-volt models
- POWERSTATE™ Brushless Motor with 10,000 RPM and 5-year manufacturer warranty
- Auto-load feature to allow the user to start slowly when making precise cuts, and automatically ramp up to the highest speed once under load
- Oscillation angle: 4.2 degrees for fastest cutting vibration dampening technology for lower tool vibration
- Compatible with all M18 Milwaukee® cordless batteries
- Variable speed dial
- 180-degree span LED light
- Tool-free blade change

PROPERTIES

Fusions System Finger Splice Skiver Kit comes with:

- 1 Milwaukee® Cordless M18 Fuel™ Tool (2836-20)
- 2 Milwaukee® M18 batteries and charger
- 1 Skiver Blade

PRODUCT CODE	DESCRIPTION
PT-ES-003-KIT	Finger Splice Skiver Kit 110V (2836-20)
PT-ES-004-KIT	Finger Splice Skiver Kit 220V
PT-ES-110SB	M18™ RED LITHIUM High Output™ XC8.0 Spare Battery (48-11-1880)
PT-ES-110BC	M18™ Dual Bay Simultaneous Rapid Charger – 110v (48-59-1802)
PT-ES-220BC	M18™ Dual Bay Simultaneous Rapid Charger – 220v
PT-ESB-003	Milwaukee® Flexible & Rigid Scraper Blades (49-25-2202)
PT-ESB-004	Milwaukee® Open-Lok 3-in-1 Multi-cutter Scraper Blade (49-25-221)
