

FABRIC BELT COVER STOCK

Fabric Belt Cover Stock is an uncured rubber used in vulcanized belt step and finger splicing.

It is designed for use as a cover rubber replacement material when splicing fabric conveyor belts. A high abrasion compound, it will bond to cured cover rubber in all standard grades of fabric conveyor belts.

FEATURES:

- Enhances working life of fabric splices
- Improves wear and tear resistance on conveyor belt splices
- Eliminates surface contamination (normal application) with double-sided poly
- Uses poly color coding system to ID compound for Natural Rubber (NR), Polyisoprene (IR), Styrene-Butadiene (SBR), Polybutadiene (BR), Polychloroprene i.e. - Neoprene (CR) rubber belt splices

* Premium Fabric Cover also available

Product Information Properties:

Base Polymer: NR Rubber
 Rubber Colour: Black
 Poly Liner Colour: Clear
 (Double-Sided)
 Specific Gravity: 1.15 - 1.21
 Hardness: 65 - 75 Shore A
 Rubber Tensile: 2500 - 3000 psi
 Rubber Elongation:
 300 - 500% (at break)
 Shelf Life:
 6 Months at 70 °F (21 °C) or
 12 Months at 50 °F (10 °C).
