

REPAIR FABRIC

Fusion Repair Fabric is excellent for replacing damaged plies within the conveyor belt and can be used in conjunction with Fusion Filler Rubber to rebuild ply layers. Available in a 10 Meter (33' Rolls).

The fabric layer is encased within a bonding layer on both sides.

FEATURES:

- Primed and ready for use.
- Recommended for the repair of conveyor belts that need ply replaced
- Use in conjunction with:
 - Fusion Cover Rubber compound, and
 - Cold Bond cements (ECRF, SA 2000+ and/or SA 4000+)
