

# STANDARD REPAIR STRIPS

**Fusion Standard Repair Strips** are ideal for the repair of puncture or gouge damage and longitudinal rips to the conveyor belt cover. One continuous roll per order.

The standard strip does not have a fabric reinforcement layer in the material.

## FEATURES:

- Won't damage the conveyor belt
- Allows the belt to be back in service in a matter of hours
- The repair likely will last as long as the original belt remains in service
- All strips feature a bonding layer which offers unrivalled adhesion to the conveyor belt
- Repair strips are available in various widths

PRODUCT CODE	DIMENSIONS - METRIC (WxL)	DIMENSIONS - IMPERIAL (WxL)	QUANTITY
CR-RS-233	50 mm x 10 M	2" x 33'	1 roll
CR-RS-333	75 mm x 10 M	3" x 33'	1 roll
