

MOR FABRIC BELT SPLICE KIT

Fusion Systems provides all the vulcanizing splice materials needed for your **MOR (Moderately Oil-Resistant)** Conveyor Belt splice.

Fusion Systems experts have formulated these splice material compounds specifically for splicing, which means better adhesion and a better-quality, longer lasting splice. Fusion Splice Materials have been proven to work well with leading quality belt manufactures' belts for over a decade.

Buying a custom splice kit provides the following benefits:

- Price is comparable if not lower than most competitors,
- No wasted splice materials,
- No additional handling or transportation required when shipped to your shop or work site,
- No need to store and maintain splicing material inventory,
- No need to monitor splice material expiry.
- Shelf Life of the MOR Fabric Belt Splice Kit is 6 months without refrigeration (20 °C or 70 °F).

Note: Actual contents will depend on your belt specifications and splice requirements. You may or may not require Belt Noodles, Edge Strips, etc.

SPECIAL ORDER SPECIAL ORDER ITEMS MAY EXPERIENCE DELAYED DELIVERY TIME.

Kits are customized-to-order specifically to your conveyor belt specification and splice requirements.

The Fabric Belt Splice Kit is carefully packed and shipped directly to your work site, ready-for-use, with the details marked on the crate exterior.

Please fill out this **Fabric Conveyor Belt Splice Kit Questionnaire** and our experts will customize your splice kit accordingly.
