

VERSATOOL

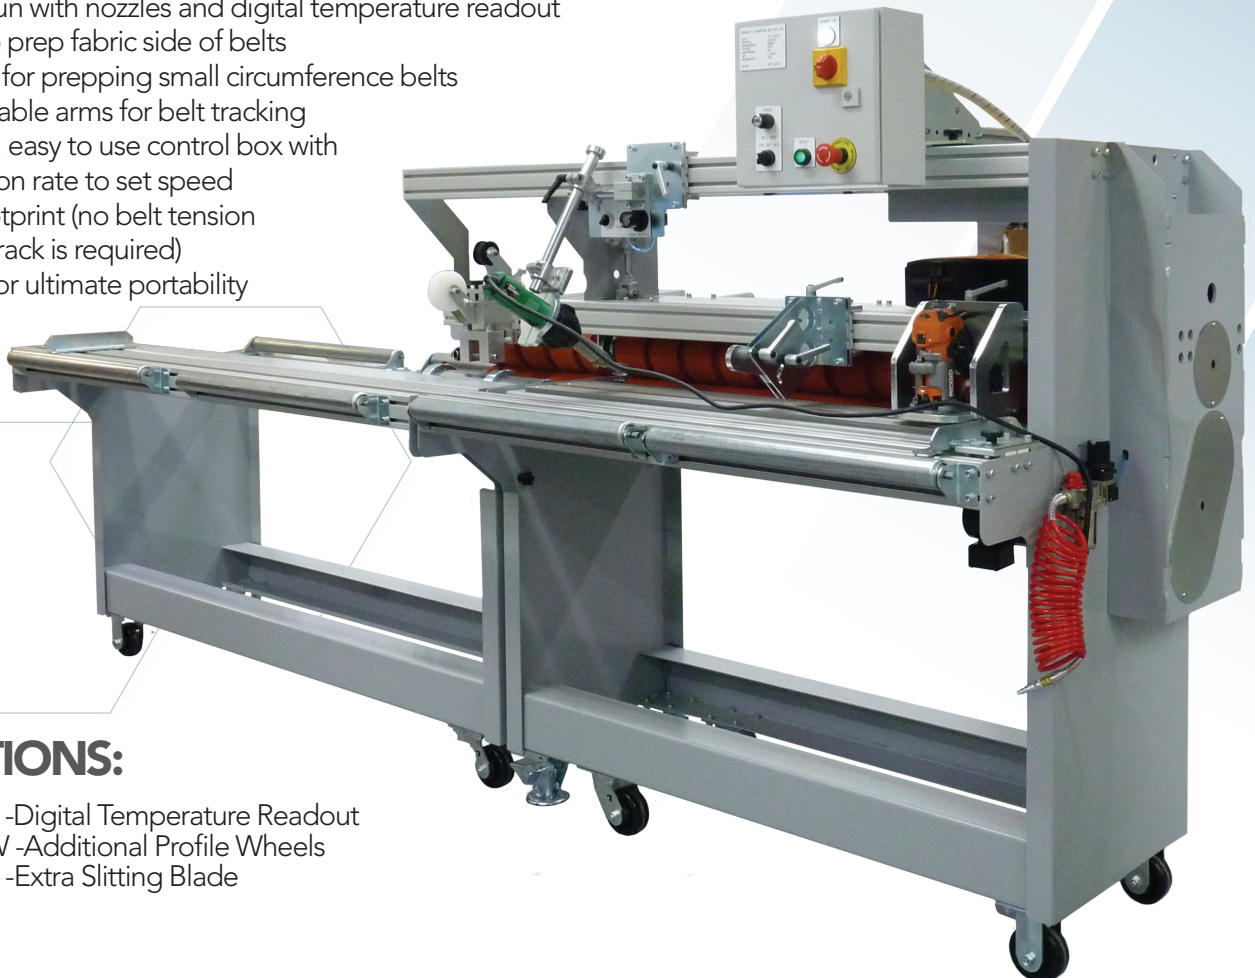

The Almex Lightweight VersaTool provides custom-tailored belts for specific operation. The automated tool slits the belt longitudinally and then grinds it in preparation for adhering the V-guides. A heat gun is also available for adding custom profiles.

FEATURES:

- Sturdy frame with adjustable guides for cutting various belt widths
- Open-throated design for wide material and endless conveyor belt
- Tabletop and beam
- Strong, adjustable pressure rollers for feeding the belt
- Adjustable cutting head
- Grinder mounted on an adjustable head
- Six sizes of profile discs: K6, K8, O, A, B, C
- Hot air gun with nozzles and digital temperature readout
- Router to prep fabric side of belts
- Side arm for prepping small circumference belts
- Two movable arms for belt tracking
- Movable, easy to use control box with production rate to set speed
- Small footprint (no belt tension or floor track is required)
- Castors for ultimate portability

PROPERTIES:

- Width: 2 M(78.7")
- Length: 1 M(49")
- Voltage: 110v
- Weight: 250 kg(551 Lbs.)
- Max Width: Open Throat
- Speed: 0-30 M/Min(0-1.112 Mph)
- Max Thickness: 11 mm(0.4")
- Min Length: 320 mm(13")

OPTIONS:

- AT-VT-TR -Digital Temperature Readout
- AT-VT-PW -Additional Profile Wheels
- AT-VT-SB -Extra Slitting Blade
