

CLEATWELDER

Almex Lightweight CleatWelder adheres cleats to the belt surface with a hot air gun, even on a perpendicular angle. Its capabilities are endless - from a beef cleat to a three-meter-wide belt, this machine can handle it all. Custom cleating is a necessity in the plastics belt market. With the AT-CW in your tool lineup, you will quickly become an expert solutions provider in difficult conveyor applications.

FEATURES:

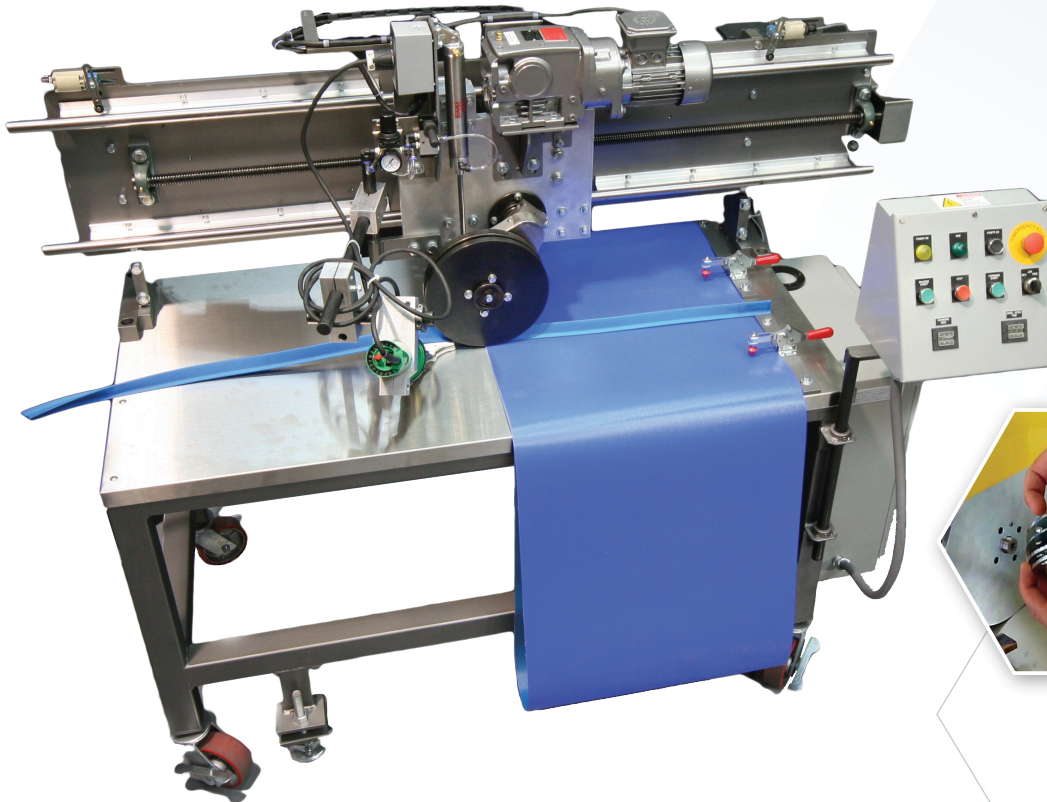

- Sturdy subframe
- Tabletop and beam
- Fitting head with adjustable speed and hot air blower
- Fitting wheel
