

ASC-20 & ASC-40

Waterproof, Easy-Access Shipping & On-Site Storage Container

The ASC 6 Meter (20') or 12 Meter (40') container offers a waterproof, secure and sea-worthy solution for shipping your Almex Equipment to your work site and then providing on site storage and security for it.

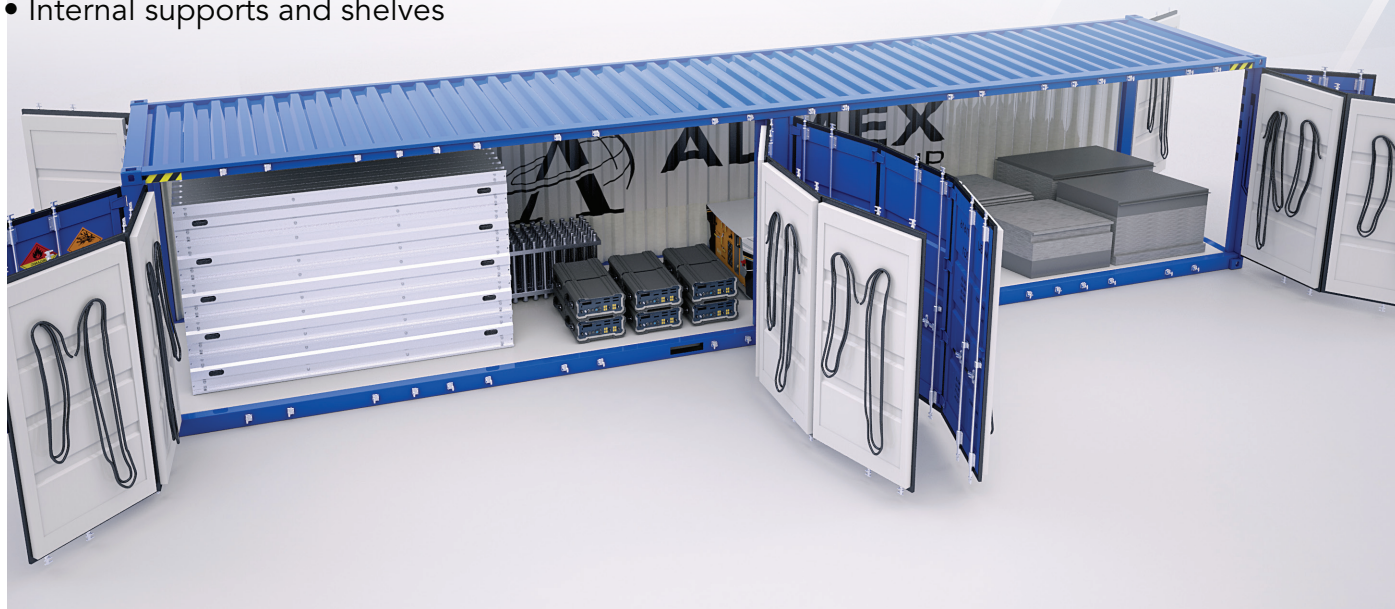

Designed to be accessible by forklift, the sides and ends of these storage containers articulate open to provide access to all inside corners of the unit with ease.

Units can be outfitted with shelves and hooks to keep smaller equipment and accessories readily available without having to move items around to get at them.

- Units are accessible from 3 sides
- Storage for complete press including all controls and accessories
- Increases the life of vulcanizer
- Provides storage for spares
- Prevents loss of component due to theft or misplacing items

■ OPTIONS:

- 6 Meter (20') or 12 Meter (40') containers
- Door configuration
- Internal supports and shelves
